## GASOLINE TANK EXPLODES

Workman Lights Pipe and Ignites  
Fumes—One Man's Leg  
Broken.

A large gasoline tank at the Banner canning factory, 141 Twenty-first street, exploded last evening with a deafening report, and a score of employees in the room had narrow escapes from death. One employee sustained a broken leg, but the others escaped with minor injuries. A match in the hand of a careless employee was the cause of the explosion.

While the gang of employees were gathered around the tank, one of them thoughtlessly struck a match to light his pipe. Then came the explosion. One of the men who saw the accident cried out: "My God, men don't do that." The words were hardly out of his mouth when the gas fumes ignited, and were carried into the tank through the mouth. The force of the explosion had just time to move away a little from the tank when the explosion occurred. All were knocked flat to the ground and Alma Wagstaff, a cooper, sustained a fractured leg. The others were more or less bruised by the flying pieces of wood and metal. Prompt action prevented the building from taking fire. Wagstaff was taken to his home on Wilson lane, where his injuries were dressed by Dr. G. W. Perkins.

## LOST ITS BOTTLES.

One Bottling Company Brings Action  
Against Another.

Claiming that the Western Bottling company of this city has been purloining its bottles, Irving Emmett of the Ogden Bottling company has sworn out a complaint before a justice of the peace at Farmington, and District Attorney Geo. Halverson has been requested to take up the prosecution of the case, which was brought under the statute providing for the protection of manufacturers' trademarks and brands.

It is claimed that information has been placed in the hands of prosecuting officers that a wagon load of bottles and boxes, which are the property of the Ogden Bottling works, were carried away from the Ogden Bottling works. There has been a steady loss of bottles and cases by the Ogden Bottling works. Two or three days ago one of the firm went to Davis county, where an investigation was instituted. The result was that the representatives went before the proper authorities and secured a search warrant for the Lagoon branch of the Western company. It is said that this search resulted in the recovery of a wagon bearing the Ogden Bottling works stamp, as well as a number of cases, also the property of the Standard Bottling company of this city.

## WILL VOTE ON BONDS AGAIN

School Board Decides to Resubmit  
the Question.

At last night's session of the board of education a decision was reached to resubmit the question of bonding the city for the purpose of building a new high school, on July 10. Since that time, however, the question has been taken up by different organizations, and the Civic Improvement league, and it is claimed the sentiment has been reversed sufficiently to insure the carrying of the election.

At the time this matter was originally submitted to the taxpayers of Ogden bonds to the amount of \$80,000 was to be the extent of the proposed issue. Since that time Fred J. Kiesel has given the board a site for the school. This gift reduces the amount necessary and it is now the intention to ask for a \$75,000 issue.

COUNCIL'S SHORT SESSION  
In Absence of Mayor, Park City So-  
lons Hurry Through With Busi-  
ness on Hand.

Park City, June 19.—It took but forty minutes to transact the business at the second meeting of the city council, held last evening in the city hall.

Owing to the absence of Mayor C. M. Wilson, who is attending the Republican national convention at Chicago, President Delight called the session to order. Roll call found Peterson absent, but that gentleman came in a few minutes later.

The minutes of the previous session were read by the city clerk, and the motion of Wright and Getch the same were accepted without correction.

Under the head of bills against the city one from C. E. Jordon, county clerk, Summit county, was read, the amount being \$100.48, for collecting taxes. On motion of Wright and Getch the same was ordered to be paid.

Fire Chief Morse reported that he had ordered 200 feet of fire hose at 80 cents per foot.

Requests for liquor licenses were made by the following people: Welsh, Driscoll & Buck company, Frank Lake and Gust Carlson. On motion of Wright and Leahy the requests were granted.

A petition was presented by James Brierly, the scavenger man, asking that his salary be raised \$5 per month, and that he receive \$25 per month from July 1, when the contract for scavenger was awarded to him. The council members agreed to pay him the extra \$5 when the mines again opened and the gentleman's evidently of the opinion that conditions in this city are on the improve. On motion of Wright and Getch the petition was tabled until next meeting.

Councilman Wright asked that the mayor pro tem, call a citizens' meeting some time during the next few days, in order that the question of whether Park City shall celebrate Independence day or not may be settled upon. After some discussion the acting mayor consented to do this and the meeting will, in all probability, be held Monday night.

Mr. Wright next called the attention of the council to crowds of men and boys, who were loitering on the sidewalks and chewing tobacco, expectorating all over the sidewalks. "It is a disgrace," said he, and should be stopped. After some talk the city attorney informed the council that there was an ordinance covering this, and the marshal was instructed to have it rigidly enforced.

Nothing further coming up, council adjourned, to meet again on the evening of July 2.

PAYS PARK OFFICIAL VISIT  
President Moyer of Federation of  
Miners Satisfied With Conditions  
at Hustling Camp.

Park City, June 19.—James H. Moyer, president of the Western Federation of Miners, spent yesterday in Park City on business connected with the organization. The day was spent by him in visiting the hospital and renewing acquaintances with his old friends.

After an evening visit to the Herald reporter and asked what his visit to this city was for. President Moyer stated that it was the duty of this office to visit as many of the unions as it was possible for him to do during the year. Asked as to how he found the various unions throughout the country, he said that contrary to reports of their falling off, that in a majority of cases the membership roll showed a heavy increase. Mr. Moyer also declared that in his opinion the country as a whole, was rapidly rounding into shape again after the terrible panic of the past eight months, and that before the summer is over things generally will be looking up. "I am feeling quite well after" said he, "sick spells, and the high official of the miners, and if appearances count for anything he certainly is."

In the evening he addressed the local union members in their hall. With Mr. Moyer were Roderick McKenzie of Silverton, Colo., and W. B. Easterly of Salt Lake. These gentlemen spent Wednesday at Bingham. The party returned to Salt Lake this afternoon and from there they will go to the convention to mark ready for the convention of miners, which will be held in that city on July 12.

Mr. Moyer said that he noted a marked improvement in Park City since his last visit here, which was in 1902.
